Action taken against students Feedback

Session: - 2021-2022

- Based on the feedback analysis majority of the students were satisfied with timely completion of syllabus. To support the weaker section of the students, remedial classes were included in the class routine.
- Regarding encouragement in extra-curricular activities, the relatively low dissatisfaction rate suggests that there are limited areas for improvement in this aspect.
- Regarding washroom cleanliness, dissatisfaction suggests that there are concerns and areas that need attention to improve the washroom condition and sanitation situation of the institution.
- Each departmental laboratory took the initiative to clean the laboratories twice a week.
- Some lab-based subjects like chemistry, geography; zoology organized offline practical classes maintaining the proper code of sanitation during the pandemic situation.
- College authority took initiative for extensive sanitization of the institution. The college also arranged free covid vaccination programme for all the stakeholders of the college and local residents.
- Books were purchased in the library as per the student's demand.
- Problems regarding the scholarship issues were addressed.
- Steps were taken to beautify the college and micro level plantation was done to keep the college clean.
